

Annual disclosure under Pillar-III of Basel-III as of December 31, 2021

Scope and purpose

The purpose of disclosures in pursuance of the Market Discipline as required by the Revised Capital Adequacy Framework under Basel III is to complement the minimum capital requirements and the supervisory review process. The aim of such disclosure is to establish more transparent and more disciplined financial market so that stakeholders can assess the position of the Bank regarding holding of assets and to identify the risks relating to the assets and capital adequacy to meet plausible loss of assets. For the said purpose, the Bank developed the set of disclosure containing the key pieces of information on the assets, risk exposures, risk assessment processes, and hence the capital adequacy to meet the risks.

The Bank is in a process of obtaining approval by the Board of Directors of a formal disclosure framework which will include the validation and frequency of such disclosure.

Relations with accounting disclosures

a) The disclosure framework does not conflict with requirements under accounting standards as set by Bangladesh Bank from time to time. Moreover, Bank's disclosures are consistent with how senior management and the Board of Directors make assessment and manage the risks of the Bank.

b) Under Minimum Capital Requirement, Bank used specified approaches/ methodologies for measuring the various risks they face and the resulting capital requirements. It is believed that providing disclosures that are based on a common/ harmonized framework is an effective means of informing the stakeholders about the Bank's exposure to those risks and provides a consistent and comprehensive disclosure framework of risks and its management that enhances comparability

c) The disclosure has adequate validation and is consistent with the audited Financial Statements.

Materiality of disclosure

The Bank disclosures all relevant and material Information individually or in aggregate whose omission or misstatement could change or influence the assessment or decision of an user relying on such information for the purpose of making economic decision.

Frequency of disclosure

a) The Bank provided all required disclosures in both qualitative and quantitative forms annually, as at end of March every year along with the annual financial statements. The Bank also submits a copy of the disclosures to the Department of Off-site Supervision of Bangladesh Bank. The Bank made the annual disclosures in the official website of the Bank: www.icbislamic-bd.com. Qualitative disclosures provide a general summary of the Bank's risk management objectives and policies, reporting system and definitions.

b) The disclosure on the websites is made in a web page titled "Disclosures on Risk Based Capital (Basel III)" and the link to this page prominently provides on the home page of the bank's website. Each of these disclosures pertaining to a financial year is available on the websites until disclosure of the 4th subsequent annual (as on March 31) disclosure is made.

Disclosure framework

According to the revised Risk Based Capital Adequacy Guidelines the Bank requires general qualitative disclosure for each separate risk area (e.g. Investment, market, operational, banking book interest rate risk, equity). The Bank must describe their risk management objectives and policies, including:

- Strategies and processes;
- The structure and organization of the relevant risk management function;
- The scope and nature of risk reporting and/or measurement systems;
- Policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/mitigations.

The following components set out in tabular form are the disclosure requirements:

- a) Scope of application
- b) Capital structure
- c) Capital adequacy
- d) Investment Risk
- e) Equities: disclosures for banking book positions
- f) Interest rate risk in the banking book (IRRBB)
- g) Market risk
- h) Operational risk

<p>(a) Definition of Past Due and Impaired Investments: ICBIBL is following the Bangladesh Bank guidelines and definition of past due and impaired investments for accounting purposes as below:</p> <p>(1) Past Due/Over Due:</p> <p>(i) Any Continuous Investment if not repaid/renewed within the fixed expiry date for repayment bank will be treated as past due/overdue from the following day of the expiry date.</p>	

(ii) Any **Demand Investment** if not repaid/rescheduled within the fixed expiry date for repayment will be treated as past due/overdue from the following day of the expiry date.

(iii) In case of any installment(s) or part of installment(s) of a Fixed Term Investment is not repaid within the fixed expiry date, the amount of unpaid installment(s) will be treated as past due/overdue from the following day of the expiry date.

(iv) The **Short-term Agricultural and Micro-Credit** if not repaid within the fixed expiry date for repayment will be considered past due/overdue after six months of the expiry date.

(2) All **unclassified Investment** other than Special Mention Account (SMA) will be treated as Standard.

(3) A **Continuous Investment**, Demand Investment or a Term Investment which will remain overdue for a period of 02 (two) months or more, will be put into the "Special Mention Account (SMA)". This will help banks to look at accounts with potential problems in a focused manner and it will capture early warning signals for accounts showing first sign of weakness. Investments in the "Special Mention Account (SMA)" will have to be reported to the Credit Information Bureau (CIB) of Bangladesh Bank.

(4) Investment except Short-term Agricultural & Micro-Credit in the "Special Mention Account" and "Sub-Standard" will not be treated as defaulted Investment for the purpose of section 27KaKa(3) [read with section 5(GaGa)] of the Banking Companies Act, 1991.

(5) Any **continuous Investment** will be classified as: i. 'Sub-standard' if it is past due/overdue for 03 (three) months or beyond but less than 06 (six) months. ii. 'Doubtful' if it is past due/overdue for 09 (Nine) months or beyond but less than 12 (twelve) months iii. 'Bad/Loss' if it is past due/overdue for 12 (twelve) months or beyond.

(6) In case of any installment(s) or part of installment(s) of a **Fixed Term Investment** is not repaid within the due date, the amount of unpaid installment(s) will be termed as "past due or overdue installment". In case of Fixed Term Investments: - i. If the amount of past due installment is equal to or more than the amount of installment(s) due within 09 (Nine) months, the entire Investment will be classified as "Sub-standard". ii. If the amount of past due installment is equal to or more than the amount of installment(s) due within 15 (Fifteen) months, the entire Investment will be classified as "Doubtful". iii. If the amount of 'past due installment is equal to or more than the amount of installment(s) due within 18 (Eighteen) months, the entire Investment will be classified as "Bad Loss".

Explanation: If any Fixed Term Investment is repayable on monthly installment basis, the amount of installment(s) due within 06 (six) months to the sum of 06 monthly installments. Similarly, if the Investment is repayable on quarterly installment basis, the amount of installment(s) due with 06 (six) months will be equal to the sum of 2 quarterly installments.

(7) The **Short-term Agricultural and Micro-Credit** will be considered irregular if not repaid within the due date as stipulated in the investment agreement. If the said irregular status continues, the credit will be classified as 'Substandard' after a period of 12 months, as 'Doubtful' after a period of 24 months and as 'Bad/Loss' after a period of 36 months from the stipulated due date as per the Investment agreement.

Description of approaches followed for specific and general allowances and statistical methods: ICBIBL is following the general and specific provision requirement as prescribed by Bangladesh Bank time to time.

Investment Risk Management Policies :

The Bank has put in place a well-structured Investment Risk Management Policy known as Investment Policy Manual (IPM) approved by the Board in 2008 and subsequently reviewed in 2020 & 2021. The Policy document defines organization structure, role and responsibilities and, the processes whereby the Investment Risks carried by the Bank can be identified, quantified and managed within the framework that the Bank considers consistent with its mandate and risk tolerance.

Besides the IPM, ICBIBL also frames Product Program Guidelines (PPG) as and when necessary to address any regulatory issues or establish control points. Bank also has a system of identifying and monitoring problem accounts at the early stages of their delinquency through implementation of Sales Routine so that timely corrective measures are initiated.

The Bank manages its Investment risk through continuous measuring and monitoring of risks at each obligor (client) and portfolio level. The Bank is following the Bangladesh Bank prescribed Credit Risk Grading modules (CRGM) and has internally developed well-established Investment appraisal/approval processes. The CRGM capture quantitative and qualitative issues relating to management risk, business risk, industry risk, financial risk and project risk. Besides, such ratings consider transaction specific Investment features while assessing the overall rating of a client. ICBIBL is also considering credit ratings of the client assessed by ECAs while initiating any Investment decision. A well structured Delegation and Sub-delegation of Investment Approval Authority is prevailing at ICBIBL for ensuring goods governance and better control in Investment approval and monitoring

Table as per Disclosure Framework – 7	Market risk												
Qualitative Disclosures													
Market Risk is defined as the possibility of loss to a Bank caused by changes in the market variables such as interest rates, foreign currency exchange rates, equity prices and commodity prices. Bank’s exposure to market risk arises from investments (interest related instruments and equities) in trading book [HFT categories] and the Foreign Exchange positions. The objective of the market risk management is to minimize the impact of losses on earnings and equity.													
The Bank has put in place Board approved Asset Liability Management Policy for effective management of Market Risk in the Bank. In order to assess impact on capital due to adverse movement in trading book, ICIBL calculated Stress Testing in accordance with the requirements of the Bangladesh Bank Guidelines. The Bank already finalized comprehensive Investment policy. The policies set various risk limits for effective management of Market Risk and ensuring that the operations are in line with Bank’s expectation of return to market risk through proper Asset Liability Management. The policies also deal with the reporting framework for effective monitoring of Market Risk.													
The ALM Policy specifically deals with liquidity risk management and interest rate risk management framework. As envisaged in the policy, Liquidity Risk is managed through GAP & Duration analysis, based on residual maturity/behavioral pattern of assets and liabilities, on a daily basis based on best available data coverage, as prescribed by the Bangladesh Bank. Liquidity profile of the Bank is evaluated through various liquidity ratios.													
The Asset Liability Management Committee (ALCO)/Board monitors adherence of prudential limits fixed by the Bank and determines the strategy in light of market conditions (current and expected) as articulated in the ALM policy. The Mid Office at the Treasury also monitors adherence of prudential limits on a continuous basis.

Table as per Disclosure Framework – 8	Operational risk
Qualitative Disclosures	
Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational risk includes legal risk but excludes strategic and reputation risks.	
Bank already established required policies and procedures for all areas of its operations. Bank strictly follows KYC norms for its customer dealings and other banking operations. The Bank is going to frame Operational Risk Management Policy to be approved by the Board. Supporting policies already been adopted by the bank which deal with management of various areas of operational risk are (a) Operational Manual for General Banking (b) Compliance Risk Management Policy,(c) FX Risk Management Policy (d) Policy Document on Know Your Customers (KYC) and Anti Money Laundering (AML) Procedures (e) IT Business Continuity and Disaster Recovery Policy etc.	
The newly established Risk Management Unit and Risk Management Department are working on preparing risk inventory for Bank to introduce Risk Log as well as Risk Register.	

For the current year Bank has adopted Basic Indicator approach to assess the capital under operational risk. In terms of new capital adequacy norms, Banks' operational risk capital charge has been assessed at 15% of positive annual average Gross Income over the previous three years as defined by BB.

Liquidity Risk

As per Bangladesh Bank BRPD circular No. 18 dated December 21, 2014, Bangladesh Bank has strengthened the liquidity framework by developing two minimum standards for funding liquidity; one is Liquidity Coverage Ratio (LCR) and another is Net Stable Funding Ratio (NSFR).

Qualitative disclosure	a)	<p>i) Views of BOD on system to reduce Liquidity Risk</p> <p>Liquidity risk arises when the Bank cannot maintain or generate sufficient funds to meet its payment obligations as they fall due or can only do so at a material loss. This can arise when counterparties who provide funding to the Bank withdraw or do not roll over a line of funding or as a result of a general disruption in financial markets which lead to normal liquid assets becoming illiquid. The main sources of the Bank's funding are capital, core deposits from retail and commercial clients, wholesale deposits and access to borrowed funds from the interbank money market. ICB Islamic Bank manages liquidity risk in accordance with regulatory guidelines internal benchmarks. A Board approved Liquidity Policy to manage liquidity on a day-to-day basis and a Contingency Funding Plan to deal with crisis situations are in place.</p>
		<p>ii) Methods used to measure Liquidity risk.</p> <p>Measurement Methodology:</p> <p>The equation: Liquidity Coverage Ratio (LCR):-</p> $LCR = \frac{\text{Stock of high quality liquid assets}}{\text{Total net cash outflows over the next 30 calendar days}} \geq 100\%$ <p>LCR = $\frac{105.01 \text{ crore}}{180.88 \text{ crore}}$</p> <p>LCR = 58.06%</p> <p>Net Stable Funding Ratio(NSFR):</p> <p>The equation: NSFR= $\frac{\text{Available amount of stable funding}}{\text{Required amount of stable funding}} \geq 100\%$</p> <p>NSFR = $\frac{1681.92 \text{ crore}}{1130.55 \text{ crore}}$</p> <p>NSFR = 148.77%</p>
		<p>iii) Liquidity Risk Management system.</p> <p>Treasury Division manages the liquidity risk and ALCO monitors the activities of Treasury Division in managing such risk.</p>

	iv) Policies and processes for mitigating liquidity risk.	To mitigate the several liquidity risks, the Bank formed Asset Liability Management Committee (ALCO) who monitors the Treasury Division's activities to minimize the liquidity risk. ALCO is primarily responsible for establishing the liquidity risk management and asset liability management of the Bank, procedures thereof, implementing core risk management framework issued by the regulator, best risk management practices followed by globally and ensuring that internal parameters, procedures, practices / polices and risk management prudential limits are adhere to.

Table as per Disclosure Framework – 10	Leverage Ratio
---	-----------------------

As per Bangladesh Bank BRPD circular No. 18 dated December 21, 2014, leverage ratio has been introduced.

Qualitative disclosure	a)	i) Views of BOD on system to reduce excessive leverage	In order to avoid building-up excessive on- and off-balance sheet leverage in the banking system, a simple, transparent, non-risk based leverage ratio has been introduced. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. The leverage ratio is intended to achieve the following objectives: <ul style="list-style-type: none"> a) constrain the build-up of leverage in the banking sector which can damage the broader financial system and the economy; and b) introduce additional safeguards against model risk and measurement error by supplementing the risk-based measure with a simple, transparent, independent measure of risk.
		ii) Policies and processes for mitigating market risk.	To mitigate excessive on and off-balance sheet leverage, the Bank formed Basel Unit who monitors the implementing status of Basel – III within the Bank as per the guidelines on risk based capital adequacy issued by Bangladesh Bank.
		iii) Approach for calculating leverage ratio	A minimum Tier 1 leverage ratio of 3% is being prescribed both at solo and consolidated level. <p>The banks will maintain leverage ratio on quarterly basis. The calculation at the end of each calendar quarter will be submitted to BB showing the average of the month end leverage ratios based on the following definition of capital and total exposure.</p> $\text{Leverage Ratio} = \frac{\text{Tier 1 Capital (after related deductions)}}{\text{Total Exposure (after related deductions)}}$ $\text{Leverage Ratio} = \frac{(1262.21) \text{ Crore}}{773.26 \text{ Crore}}$ $\text{Leverage Ratio} = (-163.23)\%$
